Bus industry welcomes Deputy Premier Jackie Trad as Minister for Transport

The Queensland Bus Industry Council (QBIC) has welcomed the Premier's announcement of Deputy Premier Jackie Trad as Transport Minister.

QBIC Executive Director David Tape said the association had a good working relationship with the Deputy Premier when she was previously Minister for Transport and we look forward to further building on that relationship.

"The Deputy Premier has given a firm commitment to return to negotiated bus service contracts with industry and we look forward to working with the Deputy Premier and Palaszczuk Government to create an innovative and sustainable public transport network for Queenslanders," said Tape.
