Turn By Turn – Navigation Application

Presenter: Hamish Duff

When: Thursday 5th of September, 10:30am

Mastercom & Qld Communications have developed an Android app which provides navigation prompts to bus drivers who are completing planned routes in Qld, Australia. The app is primarily designed to be used by bus operators, companies who organise large fleets of buses and drivers to improve their service delivery and to reduce their driver training requirements and to assist in trip/ route completions and therefore contract compliance.

The application operates on a standard Android operating system, managed via a Mobile Device Management (MDM) and allow operators to add other application layers eg Pre-departure Check and Fleet Maintenance software.

Lessons learnt from deploying electric buses and charging infrastructure in North Queensland

Presenter: Dr Jake Whitehead, Chief Scientist, Electric Vehicle Council

When: Wednesday 9th October, 10:30am

An overview of the lessons learnt as part of Tropic Wings ongoing ARENA co-funded electric bus project in Cairns. The session will highlight the lessons learnt in procuring a fleet of electric buses of different sizes, installing the associated charging infrastructure, and early insights from the operation of this fleet in private transport operations.
